CAREER OBJECTIVE

Motivated engineering student with an interest in programming, Internet of Things (IoT), Artificial Intelligence, and embedded systems. Seeking opportunities to develop technical skills, work on real-world projects, and contribute to innovative solutions.

EDUCATION

Qualification	Year	Institution
Bachelor of Engineering / Technology	2026 BITM COLLAGE	
Pre-University / 12th Grade	2023	BEST SCHOOL / SRI CHAITANYA COLLAGE
10th Grade	2022	BEST School

TECHNICAL SKILLS

- **Programming Languages:** C, Python
- **Web Technologies:** HTML, CSS, JavaScript
- **IoT:** Arduino, ESP32, Sensors
- **Database:** Basic SQL
- **Tools:** Git, GitHub, Overleaf

PROJECTS

Distance Measurement System Using Ultrasonic Sensor

- Developed a distance measurement system using an ultrasonic sensor.
- Used an Arduino microcontroller to process sensor readings.
- Measured the distance between the sensor and an object using ultrasonic waves.
- Designed the system as a simple and low-cost solution for distance measurement.

Matrix Operations Using C

- Implemented matrix addition and multiplication using C programming.
- Used two-dimensional arrays and loops to perform matrix operations.

PROGRAMMING EXPERIENCE

- Developed basic programs using C programming.
- Practiced arrays, functions, pointers, loops, conditional statements, and structures.
- Developed Python programs using functions, file handling, and object-oriented programming concepts.

CERTIFICATIONS

- Add your certification name – Issuing Organization
- Add your certification name – Issuing Organization

STRENGTHS

- Problem-solving
- Quick learning
- Teamwork
- Communication
- Time management

AREAS OF INTEREST

- Artificial Intelligence and Machine Learning
- Internet of Things (IoT)
- Embedded Systems
- Programming

DECLARATION

I hereby declare that the information provided above is true and correct to the best of my knowledge.
